

Principal's Message 2018-19

Welcome! Bienvenue! On behalf of the new and returning staff at École Vickers Public School, I want to wish you a warm welcome to the 2018-19 school year. As your new principal, I am looking forward to meeting all of the students and families here at Vickers.

Saskatchewan Rivers Public School Division is committed to literacy and “*Excellence for Every Learner.*” Similarly, the staff at Vickers are dedicated to literacy and have high expectations for our students. When the Vickers staff gathered in August, we reflected on our school division mission, vision, and goals then explored all the reasons why we do what we do. Below is a beautiful collection of our responses . . .

Our school community will focus on our reading goal for a second year and will be centered on many fun and engaging literacy activities in the 2018-19 school year. The partnership we develop with you, the parents, is crucial to your child’s success. We always appreciate your input so please feel free to call us or come by for a visit to share your thoughts and questions. Additionally, regular communication with your child’s teacher will enhance your child’s educational experience and support his/her learning and growth. The School Community Council is a great way to engage in your child’s education. Studies show that when parents and caregivers are authentically involved in the school – their children do better in school! I invite you to come out to our first meeting in September and see it first-hand!

École Vickers School is a vibrant community with many opportunities for our students. Our staff work hard to connect with our students outside of the classroom and are already busy organizing many athletic events, clubs, and activities. We strongly encourage students to get involved in the many opportunities available for them.

I wish everyone a successful 2018-19 school year filled with many opportunities for academic achievement and growth in a high quality learning environment.

Mrs. J. Green
Principal
